- I provide educational sanctioning for students found in-violation of academic integrity.

## Group Me – Submission to SCAI

How can we best support the Office of Student Conduct in submitting the names of GroupMe participants? For example, if a GroupMe includes 45 students, what names should we send forward?

<https://osc.sdes.ucf.edu>

Submission of Academic Misconduct Incident Report

***What names to submit?***

***Those involved in WRITTEN TEXT postings or exchanges***

- One report for all students involved in the same behavior
- Include screen shots of the written text, instructions for the assignment that indicated “no outside sources allowed”, any correspondence you have had with the student, and your course syllabus

## Group Me

### How to Find Out Who Posted

---

Able to determine more information regarding an individual who joined a Group Me chat if their username is not associated with the course roster (ongoing investigation right now)

More to Come

## Combating the Use of Group Me... Use Your Students

- Students will email you about the use of a Group Me chat for cheating.
- Students will send you screenshots of Group Me chats that contain cheating.
- We don't need the student who informs you of the Group Me to participate in a conduct hearing.  
The screenshot is enough.

# Lock Down Browser

- We can now obtain the video of a student taking an assessment for evidence in an academic misconduct case.
- Need to be able to **SEE** that the student is using something to gain an unfair advantage.
- Shifty Eyes Don't Count

# Do I Report or Do I Not Report?

- Is it that serious?
- Do I want a student's life upended over this?
- What will student's think of me for turning them in?
- I don't want them to get into trouble.
- My reputation will become that as "The one who turns students in"
- I don't want this follow them the rest of their lives.

# Unsanctioned Coaching Session (No Conduct Record)

For students who come close to committing academic misconduct.

For students who need intervention but what they did was not too serious or does not need to go through the student conduct process.

Mandating the coaching session needs to come from the Instructor. I have language you can use in an email to send to students regarding how to connect with me and potential consequences for not following through.

An email is sent to the Instructor after the coaching session has concluded.

This is an Experiment in....
