

UCF Classroom Technology

Classroom multimedia equipment

- **Touch Panel**

Use the touch panel to turn the system on/off, control the source, adjust volume, and in many cases adjust lighting and camera.

- **Lapel mic**

Used for instructor voice amplification in many classrooms. Can also be used with Zoom/Teams for online attendees.

- **Laptop HDMI**

Teaching consoles are equipped with a full-sized HDMI connection for your laptop.

*Please bring an adapter if your laptop does not have this connection type.

- **PZM table mic**

Used for Zoom/Teams online attendees. Will pick up all audio in the room. Does not amplify voice over room speakers.

- **Document Camera**

Used for presentation of documents or small objects. Models vary across campus.

- **USB hub**

Connect USB devices when using the in-room computer.

- **Webcam**

Classrooms are equipped with a webcam. OIR is working to install wall mounted pan/tilt/zoom cameras in each room.

- **Assistive Listening system**

Amplifies mic audio to a receiver that students can obtain from Student Accessibility Services.
